

**IOWA PUBLIC AIRPORTS ASSOCIATION**  
1255 SW Prairie Trail Pkwy., Ankeny, IA 50023

## Membership Application

*Airport Membership in IPAA is open to public airports in Iowa, which are owned or operated by aviation authorities, commissions, governmental agencies or boards. Each airport possessing the qualifications for Airport Membership shall be entitled to one (1) vote at all meetings of the members of the association and shall be cast by a single designated representative. Associate Membership is non-voting and open to most other organizations working in the aviation industry.*

Check the box next to the type of membership for which your organization qualifies.

- Commercial Service Airports – \$300.00** \_\_\_\_\_  
These airports support some level of scheduled commercial airline service and should be equipped to serve a full range of general aviation aircraft. General aviation facilities and services at commercial airports in Iowa should be similar to those identified for the Enhanced Service airports.
- Enhanced Service Airports – \$150.00** \_\_\_\_\_  
These airports support almost all general aviation aircraft, including most types of business jets. These airports generally serve as transportation centers and economic catalysts for the state. Facility and service objectives: 5,500' x 100' runway, parallel taxiway, precision approach, approach lighting, AWOS/ASOS, covered aircraft storage, jet and aviation fuel, full service FBO, and ground transportation
- General Service Airports – \$150.00** \_\_\_\_\_  
These airports support most twin and single engine general aviation aircraft and may experience occasional use by business jets. These airports support regional and in-state air transportation needs and local economic development. Facility and service objectives: 4,000' x 75' runway, partial parallel taxiway or turnarounds, non-precision approach, AWOS/ASOS, covered aircraft storage, jet and aviation fuel, limited service FBO, and ground transportation.
- Basic Service Airports – \$75.00** \_\_\_\_\_  
These airports support single engine general aviation aircraft, but may also accommodate occasional smaller twin-engine general aviation aircraft. These airports support local air transportation and special use aviation activities. Facility and service objectives: 3,000' x 60' runway (paved), 2,500' runway (turf), exits as needed, visual approach, covered aircraft storage, and aviation fuel.
- Basic Service II Airports – \$75.00** \_\_\_\_\_  
These airports support local air transportation, special use aviation activities, and may be in close geographic proximity to one or more other system airports. No facility and service objectives are specified for these airports.
- Associate Members - \$200** \_\_\_\_\_  
We gain strength and diversity with enrollment of persons or businesses that work within the aviation industry. Persons, firms and corporations who are sponsored for such membership by any airport member may become an Associate Member.
